ITrain, the International Association of Information Technology Trainers, Ltd. is a non-profit association of IT professionals. Members are invited to attend training and conference seminars that are held both online and at popular convention sites. Members also have 24-hour access to the online resources of the association, including:

- Certification & professional designations
- Discounts on certified software learning guides
- Continuing education (classes now forming)
- Course outlines & training tips
- Times and locations of professional education seminars
- References to training-related information

Organizations Who Enjoy Membership in ITrain

fax 801.650.0423

Participation in the association is valuable to trainers from all sectors of education and training including:

- For profit, business training
- Primary and secondary grades (K-12)
- College and higher education
- Adult continuing education
- Government institutions
- Military organizations
- Specialty training providers

Message from the Membership Director

ITrain offers IT trainers a welcome place to exchange ideas that's a noncompetitive and mutually supportive environment.

All day long we, as trainers, face students who are apprehensive, tentative, sometimes boisterous, and occasionally downright scared. It takes a toll on us. And, it's tough to stand up in front of strangers to present training in skills that may mean the success or failure of your students' careers. It's a lot of responsibility.

I know what you're going through. I've been teaching technical subjects since the early 1980's, and I've stood before thousands of students. That's why I helped start ITrain. I want a place to network with my peers; to learn from others whom I respect; to maintain professional responsibility. I want to associate with professional trainers. I hope you're looking for the same opportunities.

If I may help you in any way, please call me or drop me a note at member@itrain.org.

--Dave Murphy

About the Association

ITrain is an international association of information technology (IT) training providers and related specialty products and services.

Membership in the association benefits trainers and their staffs by providing access to resources and support services that aren't available anywhere else.

Membership Classifications

ITrain offers three types of membership classifications:

1. **Organization** membership is open to training companies, schools, and organizations involved in the presentation of IT training programs. (annual dues US\$499)
2. **Individual** membership is open to IT trainers who are in private practice or wish a personal ITrain membership. (annual dues US\$149)
3. **Vendor** membership is available to companies that offer products and services to the IT training community and wish to reach the ITrain members. (annual dues US\$999)

Resource Areas

Resource areas are available 24 hours a day to all members via our website.

Papers authored by members, training tips, and helpful information from supporting vendors are always available to members. Online chat rooms allow members to share their experiences and successes. A weekly forum, open to all members, gives you a chance to meet other trainers who, like you, want to be their best.

Call for Papers

If you or your organization wishes to author an article to be considered for inclusion in an ITrain resource area, send the text of your article in the body of an email message to the Resource Director, resource@itrain.org.

ITrain Membership & Vendors Guide

The ITrain membership and vendors directory lists members and related vendors by company name, product category, and region.

Why You Should Be an ITrain Member

Remember:

- networking with other IT training professionals
- personal "@itrain.org" email address
- certification as a professional IT trainer
- professionally-designed course outlines
- discounts on certified software learning guides
- related vendor information
- continuing education opportunities
