### The Training Book

*the handbook for trainers*

*volumes 1 and 2 available now*

Learn how to focus on learners' needs and exceed their expectations every time, add punch to your presentations, and create truly great training materials.

Through an in-depth exploration of 67 technical articles that delve into most important skills that lead to success as a professional trainer, **The Training Book demonstrates quickly and succinctly the steps you must take to become a great trainer.**

Dave Murphy, founder and membership director of ITrain, calls this book a *"must-read for all IT trainers."*

Quantity discounts available for each volume		Single Title(s)	Set: v1 & v2
1 - 9 copies	.....	\$43.95	\$79.95

These books are available through the ITrain Academic Registrar, 410.567.5366, 888.290.6200, or online at itrain.org.

### The Technical Writer's Checklist

*the guide to accurate writing*

*volumes 1 and 2 available now*

Step-by-step, you'll learn how to create paragraph unity, cohesion, and logical bridges; ensure proper word choice; and the perennial favorite: passive versus active voice. Learn to add punch to your writing and make your students want to learn more. Do you know how to best write for your audience's reading level? You will after following the steps in this guide.

The Technical Writer's Checklist walks you through the 38 steps you must take to become a great technical writer, a skill required of all trainers.

And there are no boring, time-consuming grammar exercises!

This book is printed in color and bound so that it will easily lay flat as you work through the detailed checklist with 147 examples and suggestions.
